Сопроводительное письмо

Hello Dear HR Team

I'm Kyyas, a Senior Full-Stack Engineer with 6 years of active contribution to building scalable web applications, integrating AI and Web3 technologies, and solving complex back-end challenges.

Excited to apply for the Senior Full-Stack Engineer (TS/JS/Py) role on your team. My core stack includes FastAPI, Node, React, Next, SQL, and Web3, and built tools used by thousands of users — from real-time game publishing platforms to intelligent AI engines.

A few highlights from my recent work:
 TapNation: Built a game publishing platform with real-time A/B testing, analytics, and third-party integrations. Added a marketing AI assistant to boost campaign efficiency — cut time-to-market by 40%.
 CoinBeats: Directed and developed a Conversational AI Assistant for crypto traders, simplifying decision-making in volatile markets through contextual understanding of both general and crypto-specific queries.
 Isleg Film: Led the development of an AI engine that analyzes user behavior to personalize content and anticipate user actions, boosting engagement by 30%.

What I bring to your team:
 High-performance APIs and scalable architecture — systems that don't break under load.
⚡ Responsive, high-performance frontends — built with React and Next.js for seamless user experiences.
 AI-powered features — from intelligent assistants to personalized content engines that drive engagement.
🛠 Solid DevOps skills — experience with CI/CD pipelines, Docker, Nginx, and infrastructure automation.
 Strong product sense — I think beyond code to user value.

Feel free to check out my AI portfolio and have a chat with it — it showcases live projects and even answers your questions:
 https://kyyas.dev

Warm regards,
Kyyas Ilmyradov

Желаемая должность и зарплата

Senior Full-Stack Engineer

Специализации:
— Программист, разработчик
Занятость: полная занятость, частичная занятость, проектная работа
График работы: полный день, гибкий график, удаленная работа
Желательное время в пути до работы: не имеет значения

Опыт работы — 5 лет 8 месяцев
